Subject: Meeting with Telefonica on TiSA and TTIP

(for registration in Ares)

Meeting today with [Art. 4.1 (b)] , Telefonica, to discuss [Out of scope] and TTIP. Telefonica's main message was that, in order to ensure a level-playing-field, TTIP and [*] should have a single digital chapter that applies to telecom operators and over-the-top players (such as Google, Facebook etc) alike.

*Out of
scope

Main points:

- [Out of scope]
- [Out of scope]
- Net neutrality should not be part of TTIP or [Out of scope] because it favours over-the-top providers at the expense of telecom companies. If the EU wants to do something on "neutrality" it should be something larger that also covers "platform neutrality" (rules that require platforms to be neutral and not to favour any type of content - equal obligations for provision of equal services).
- [Art. 4.2]
- [Out of scope]
- [Out of scope]
- [Out of scope]

[Art. 4.1 (b)]
