Stakeholder(s)	ACEA
Representative(s) of stakeholder(s)	[REDACTED]
DG GROW representatives	[REDACTED] & [REDACTED]
Representatives of other DGs	NA

Summary of meeting

[REDACTED] had asked for the meeting to have an update on the work of the Battery Alliance. He also explained that he had found it difficult to get involved in the work that InnoEnergy was doing for the Commission in this area.

[REDACTED] explained the main elements of the Strategic Action Plan for Batteries that was adopted by the Commission as part of the Third Mobility Package on 17th May. InnoEnergy had contributed to this Action Plan through the submission of an agreed set of recommendations by industry stakeholders including some ACEA members.

[REDACTED] stressed that the Commission was rapidly switching its focus from a policy reflection into implementation. This means concentrating on how to support individual concrete and planned projects and so most interaction will be with individual companies rather than industry associations. However, we promised that we would keep ACAE regularly updated on progress.
