Subject: [EXT] RE: World Economic Forum: Interview request for Davos Agenda Week 2021

[REDACTED]

[REDACTED]

In addition, during the Davos Agenda Week, the Forum Foundations will host a [Meet the Leader series](#) with [Young Global Leaders](#) and [Global Shapers](#), to connect world leaders to next-generation change-makers. We polled the communities to ask which leaders they would be inspired to interact with and, to no surprise, President Lagarde was the top answer. Together, the Foundations have a combined reach of 10,000 members creating positive change in more than 150 countries.

As a result, the World Economic Forum would like to invite the President to host a virtual session during the Davos Agenda, taking place from 25-29 January. We can work with your team on logistics, but the initial proposal would be a 30 to 45-minute discussion and Q/A moderated by a YGL or a Shaper. We're flexible on the date and time, and can accommodate the President's schedule before, during or after the virtual summit. [...]

If there is interest to engage, I would be happy to set up an introductory call together with my colleagues on the Foundations Team.

Many thanks for your consideration and all the best,

[REDACTED]
