Subject: Your request for access to documents of 20 January 2022
Our ref: 2022/013

Dear Mr Soesanto,

I would like to thank you for your request for access to documents, which the EEAS has examined in the framework of Regulation (EC) No 1049/2001.¹

Following your request, we have searched for documents on “*the specific "additional, direct, technical assistance" the EU members states have agreed upon to offer to Kiev in response to the cyber attacks against the Ukraine*”, and containing “*information on the response from the EU member states that are part of the Cyber Rapid Response Teams (CRRTs) under the Permanent Structured Cooperation (PECSO) to the High Representative's request for the CRRTs to be activate and deployed to the Ukraine*” in the EEAS filing systems and document management databases.

I regret to inform you that no direct match could be found and that therefore such request for information is outside the scope of the Regulation. Please note that under the legal framework for public access to documents, the institution has to assess whether it can release certain documents to the public domain, but it is not obliged to create new documents with the requested information. The EEAS confirms that there is no such a document containing the requested information.

Yours sincerely,

[e-signed]

Nereo Penalver Garcia

¹ Regulation (EC) No 1049/2001 of the European Parliament and of the Council regarding public access to European Parliament, Council and Commission documents (hereafter the "Regulation").
