Dear

Referring to your email and the modification of the draft document in point B1, related to the removal of the claim on carbohydrate in the draft Regulation, Bulgaria in this case will vote **in favour** for the amended text of the Regulation.

Best regards,

Head of Department
Ministry of Health

Dear

The draft under B1 was modified and the claim on carbohydrate was removed from the draft and put on hold. Can I consider that Bulgaria can then support the new draft, given that your objection concerned the carbohydrate claim. I would appreciate your confirmation by return email. The vote on B3 was postponed. I note your vote in favour on B2. Thank you for a quick reaction.
