Dear Kurt,

Thanks again for the exchange this morning.

As promised, please find attached our "Solar Sustainability Best Practice Benchmark", as well as a dedicated paper on Agri-PV Best practices.

I also take the opportunity to send you a presentation on European PV manufacturing, explaining where we stand today and featuring the European strengths and concrete projects ready to scale up, as well as our main asks to support this industry.

Let me know if you have any questions.

Kind regards,

[REDACTED]
