

**From:** [redacted] (STM) <[redacted]@gov.fi>  
**Sent:** 28 February 2022 14:00  
**To:** EHEALTH NETWORK  
**Cc:** [redacted] (STM)  
**Subject:** FI - Number of issued DCCs

Dear EU Digital Covid Certificate Secretariat,  
 Finland/[redacted] Kela has these updated the numbers here; [Statistics and reporting - eHealth Network - EC Extranet Wiki \(europa.eu\)](#)

FI	- For the period: from: 27.12.2021 to 2.1.2022	127921	27046	404
	- For the period: from: 14.2.2022 to 20.2.2022	51096	21572	220
	- For the period: from: 21.2.2022 to 27.2.2022	41427	18964	185
	- <b>Cumulative (since your DCC go live):</b>	<b>5270377</b>	<b>751386</b>	<b>560</b>

In the figures, the corona certificates made several times for one of the individual transactions have been compiled, ie if you make 5 corona certificates for the same transaction, then they are counted as one here.

If we look at the total number of corona certificates created (each "push" = new certificate), a total of 15 million have been generated:

- vaccination certificates 13 246 048
- laboratory tests (currently PCR and RAT tests not distinguishable) 1 586 451
- Recovery certificates 536 934

Sincerely

**Aihe:** FI - Number of issued DCCs - Art 16(1) Report

**Tärkeys:** Suuri

Dear colleagues,

Article 16(1) of the EU DCC Regulation 2021/953 requires the Commission to submit a report by 31 March 2022 to the European Parliament and to the Council, which shall include an overview of the number of certificates issued. Since the entry into force of the Regulation, we have been collecting statistics from Member States via the eHealth Network on the number of issued certificates. We thank you for having provided us with this valuable information to date. It has not only kept interested stakeholders informed of progress of implementation but has also demonstrated to interested third countries the significant impact that the DCC is having.

To ensure the accuracy of our reporting, we would like to confirm with you the cumulative number of certificates issued up to 28 February 2022. The numbers below are based on the most recent information we have received from you. If this information is incorrect, please update it accordingly:

- Vaccination certificates 2.213.087
- NAAT/PCR test certificates 303.587
- RAT test certificates 9.553
- Recovery certificates 48.268

Thank you very much for confirming these numbers by **10:00 Tuesday 1 March 2022**.

With kind regards,

**The EU Digital Covid Certificate Secretariat**

**European Commission**
