**Subject:** SK - Number of issued DCCs - Art 16(1) Report  
**Importance:** High

Dear colleagues,

Article 16(1) of the EU DCC Regulation 2021/953 requires the Commission to submit a report by 31 March 2022 to the European Parliament and to the Council, which shall include an overview of the number of certificates issued. Since the entry into force of the Regulation, we have been collecting statistics from Member States via the eHealth Network on the number of issued certificates. We thank you for having provided us with this valuable information to date. It has not only kept interested stakeholders informed of progress of implementation but has also demonstrated to interested third countries the significant impact that the DCC is having.

To ensure the accuracy of our reporting, we would like to confirm with you the cumulative number of certificates issued up to 28 February 2022. The numbers below are based on the most recent information we have received from you. If this information is incorrect, please update it accordingly:

- Vaccination certificates **6.601.766**
- NAAT/PCR test certificates **3.283.513**
- RAT test certificates **4.069.152**
- Recovery certificates **1.033.073**

Thank you very much for confirming these numbers by **10:00 Tuesday 1 March 2022**.

With kind regards,

**The eHealth Network Secretariat**

**European Commission**
