Dear Madam or Sir,

We hope this e-mail finds you well. We are contacting you as you are on our list of stakeholders interested in events and developments on the framework protecting and facilitating investment in the Single Market and sustainable finance. In this connection, we would like to inform you that an up-date on our work on investment protection and facilitation is now available [here](#) [CMU action 15].

We would also like to invite you to **save the date of 28 June 2022**, when the European Commission is organising a **Forum on protection and facilitation of investment in the Single Market** in Brussels. The provisional agenda is available [here](#).

The **2022 Forum** has the following objectives:

- 1) Presentation of the policy approach and a toolbox of possible targeted measures on investment protection and facilitation by Commissioner McGuinness.
- 2) Discussing how to ensure effective implementation of the measures, including optimising feedback channels and follow-up mechanisms to deal with investment protection issues of single market concern.

The event will bring together all stakeholders and encourage exchanges of views in a roundtable format. The participants will include companies and investor associations from various sectors, legal practitioners, academics, civil society organisations, Member States authorities as well as Commission officials.

The event will take place in a hybrid format. Given the space limitations, we can accept one representative per organisation in the room and will welcome more interested participants online.
