Hi Natasha,

I hope this email finds you well.

You get of course your official internal briefings but I also wanted to share with you our two proposals for Ukraine which we are currently sharing with various interlocutors. My DG will certainly make reference to them.

The first one focusses on establishing support hubs in EU MS in view of labour market integration of refugees.

The second one focusses on support to UA authorities in the area of border management (we currently still implement a EU funded border management project) but also migration management. We believe that support for border management is not only a technical issue important for security and trade but also a strong political message for an independent Ukraine!

Please note that both concepts and especially the one focussing on UA authorities are regularly adapted and updated.

See you Wednesday,
