

SD N 298203 – EC question to Sweden

“According to notified requirement: “Anyone who carries out an activity in accordance with the Act shall pay an annual fee to the Health and Social Care Inspectorate for the authority’s supervision.” Art. 6 lit (a) of Dir. 2005/36/EC requires a service provider to be exempted from registration with or membership of a professional organization. Member States may provide either automatic temporary registration with or pro-forma membership of such a professional organisation, provided that such registration or membership does not delay or complicate in any way the provision of services and does not entail any additional costs for the service provider.

EC would like to ask Swedish authorities how the provision that anyone who carries out an activity in the context of temporary and occasional cross-border service in line with the Act shall pay an annual fee to the Health and Social Care Inspectorate for the authority’s supervision complies with the Art. 6 lit (a) of Dir. 2005/36/EC.”
