6. The Ministry of Agriculture has examined and assessed the Irish notification on a draft Regulation pursuant to Section 12 of the Public Health (Alcohol) Act 2018 (2022/441/IRL) (hereinafter, the draft Regulation). The draft technical regulation has been notified according to the notification procedure under Directive (EU) 2015/1535 of the European Parliament and of the Council of 9 September 2015 laying down a procedure for the provision of information in the field of technical regulations and of rules on Information Society services.

The draft Regulation stipulates that all alcoholic beverages offered on the Irish market shall have a pictogram of specific appearance, size and colour included in their label with a health warning text, a health symbol and health impact information.

As there are currently no requirements for the appearance, size and colour of pictograms and warnings in all Member States, please insert in the text of the notification a mutual recognition clause to accept products with similar pictograms and warnings on the Irish market if these products are lawfully marketed in another Member State.
