Subject: Introducing the Circular Aluminium Action Plan

Dear Commissioner:

In the context of the European Green Deal, our members have adopted the [Circular Aluminium Action Plan](#), a strategy for achieving aluminium's full potential for a circular economy by 2030. It provides a roadmap for European policy makers and the European aluminium industry to work together to make this ambition a reality.

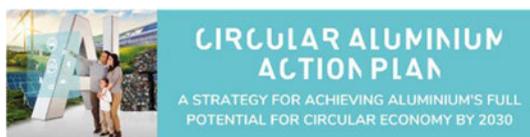

You may remember that we initially hoped to present the plan to you at the occasion of European Aluminium's Spring Meetings, but Covid stopped our ambition. Anyway, we would be pleased to have an exchange with you and your team in the coming weeks to further explain how the aluminium industry can contribute to the Circular Economy Action Plan.

Best wishes
