Dear [REDACTED] and team!

Happy New Year from all of us at Cefic. Look forward to a better one!

Thank you for the mail. With [REDACTED], we would like to discuss the following with DG Jorna:

1. Personal Introduction of the new Cefic President and DG Jorna
2. Our Presidents vision on the state of the industry, global competition, COVID response and first insight in 2020 final impact.
3. The quest for renewable electrons for industry (Hydrogen, Electrification, EEG and EEAG revision). Feedback from our meetings with EVP Vestager.
4. CBAM, ETS review and the chemical industry – our views and feedback on Cefic discussion with EVP Dombrovskis.
5. The CSS, impacts and High Level Panel – need to speed up the start (follow up from first discussion with DG Jorna)
6. Industry progress on chemical recycling – plastic recycling.
7. Our experiences with the recovery plans (also please see the letter attached) – further advice the DG could give us.
8. The sectoral deal for chemicals / or future chemicals deal = an integrated approach to these massive changes for our industry leading to a massive investment need.

Would there be additional issues you would like to raise? If so, please help us prioritise the above and add issues we should prepare for.

Kind regards
