Subject: 2nd Progress report on the implementation of the Action Plan for the Development of Organic Production (COM(2021) 141)

Dear colleagues,

Please find in annex the second progress report (July to December 2021) on the implementation of the Action Plan for the Development of Organic Production (COM(2021)141).

The report describes all of the actions carried out thus far. You will note, a good part of our work has been devoted to putting in place the necessary institutional and public awareness tools to make sure we progress in our ambitious target of 25% of EU's agricultural land under organic farming.

In the coming months we will start work on the assessment of Member States' CAP Strategic Plans, where I expect organic farming to feature prominently.

Please do not hesitate to request any clarification you may require.

Yours sincerely,

Janusz Wojciechowski
