Subject: Meeting with Dow Vice President Global Government Affairs, 26-27 September

Dear Mr Samsom,

my name is [REDACTED] and I am Government Affairs Leader Europe for Climate and Energy in the Brussels office of Dow Chemical. I am contacting you following most notably a meeting you had last year with [REDACTED], President Benelux, Nordic, United Kingdom, France, Spain & Portugal for Dow and Chairman Board Dow Benelux, where he presented Dow's decarbonization plans for our flagship site in Terneuzen (NL).

Dow Vice President Global Government Affairs, [REDACTED], is planning a trip to Europe and will tentatively be in Brussels on 26-27 September. He would like to discuss with you Dow's decarbonization plans and the key role of the ETS and the upcoming CBAM.

Dow is supportive of frameworks that place a price on carbon and is **working on the establishment of a voluntary carbon market in the US for industry** (here voluntary refers solely to the initial choice to participate). In this regard, as the European Union is preparing to set up a CBAM, [REDACTED] **would like in particular to raise the possible links with such an ETS in the US and whether this could lead to exemption from CBAM.** [REDACTED] will be accompanied by [REDACTED], Executive Director of the Alliance for Market Solutions, who will be the person starting up the US Emissions Trading Scheme Registry, which is planned to be in existence as of 1 September.

If you have any question, please do not hesitate to contact me.

Looking forward to your answer.

Thank you

Best regards

[REDACTED]

Government Affairs Leader Europe – Climate and Energy
