Catherine,

It has taken some time to get the information of [REDACTED] but here it is.  
As you will see there will still be a meeting with [REDACTED] early next year. However, on the basis of the information obtained, knowing that this is an activity deployed in shared management and in view of the advanced stage of the activity (should be ended in about 3 months) I cannot identify legally sound reasons to intervene for now.

Regards,  
Koos

Unit F5 has conducted an enquiry into [REDACTED] in Romania as we agreed; this is the conclusion drawn by [REDACTED] to which I agree.

I propose that [REDACTED] contacts [REDACTED] (to cover the concerns of the Cabinet) early in the new year as you have earlier requested (but which we put on hold until we had the responses from RO).

Please let me know if we can proceed on this basis.
