True, I will, realised I had forgotten.
PS translation should be launched in eGreffé

René

We may also at some point mention that we suggest FAQ's to accompany the guidelines

Best regards

Christoph

Importance: High

Christian, Jean-Luc,

The interservice consultation on whistleblowing has now ended. Overall services were positive, with the exception of DG TRADE which initially issued a negative opinion but lifted it after discussion.

Attached you will find 1) the final version; 2) the final version with TC; and 3) a table with all comments received, with our reaction to those comments.

If you agree, we will close the ISC by putting the clean final version and the table of comments in the system. We will then (separately) launch the procedure for adoption (agreement of IS/VPS).

Since we are aiming at adoption at the end of April, a quick reaction would be welcome.

Best regards,

René
