Subject: RE: Implementation Cost Reduction Directive and penalties in the TSM regulation.

Dear [redacted],

Many Thanks for this update. Has the confirmation by the State Council taken place as foreseen? By which time would you expect signature and publication of the law?

As a second point, in the context of Regulation (EU) 2015/2120 on Open Internet Access I received the following information during our country visit in January: "The ILR will be empowered to impose sanctions provided for in Regulation (EU) 2015/2120 (concerning open internet access) with a new law concerning the ban on anonymous prepaid cards (Projet de loi 7052 "portant modification de la loi du 27 février 2011 sur les réseaux et les services de communications électroniques)."

I would be interested to learn whether this information is still up to date or if there had been any progress with this draft law; whether these sanctions would include penalties as provided for in Art 6 of Regulation (EU) 2015/2120, both in the area of net neutrality, i.e. Art 3 of the regulation, and of roaming, i.e. Art 4 of the regulation. Also, I would be interested to learn about the maximum amount of penalties which could be imposed in each of the cases.

Many Thanks in advance for your reply

Best regards
