Dear Dr Schnichels,

Thank you for the opportunity to comment on the draft minutes of the meeting held on the 27<sup>th</sup> of November last.

We send you in the attachment our proposed track changes.

On two specific issues we would like to stress the following:

Number of value chain stakeholders concerned by the provisions at article 14: The estimate of 5.000 to 6.000 stakeholders refers to wholesalers and does not cover the many thousands EU warehousing and transporting companies that will be affected by these measures as well. As the extent of the Tracking and Tracing requirements is unclear with regard to imports and exports, this number could be a multiple of that, in particular, if all non-EU warehousing, transporting and wholesale operators were included.

Volume of SLIM cigarettes: 6% of the EU cigarette market is still 35 billion stick per year – therefore the cigarette industry will need to adapt its pack and packaging machineries for a significant volume of products.

These comments are included in the proposed review. I thank you in advance for letting us know if you would not consider accepting all our suggestions.

Finally, in order to plan our work-load, we would like to know if the contractor for the feasibility study on T&T has been selected and, if it is the case, who it is and when we can expect to be contacted for the collection of information. I thank you for any info you can share with us on this.

Kind regards

Antonella Pederiva
