Subject: meeting report - Transport&Environment - comitology proposal

Dear [REDACTED],

At the request of Transport&Environment (T&E), an environmental NGO based in Brussels, [REDACTED] and myself met yesterday morning with their Director for Better Trade and Regulation (Ms. Cécile Toubeau) and her legal officer in order to explain the Commission's proposal to modify the Comitology Regulation. T&E welcomes the proposal and thinks that any step in the direction of increased transparency is good. They regret that the transparency requirement is limited to the Appeal Committee only and would have preferred to have votes made public at all levels (including the examination committee level). They are preparing a written position paper that they will share with the Commission once ready.

Best regards,

[REDACTED]
