DATUM 02 February 2015

WRL 024362-00/00 Glyphosat (H)

EU-Evaluation of active substances

Renewal of approval according to Regulation (EC) No 1141/2010 (AIR 2)

Dear [REDACTED],

the Glyphosate Task Force submitted additional information for glyphosate to Germany as Rapporteur Member State on request of EFSA. This information has now been evaluated.

Please find enclosed a CD-ROM with an electronic version of the revised Renewal Assessment Report (RAR Volume 1, Volume 3, B.2, B.3, B.4, B.5, B.6, B.7, B.8, B.9, LoEP and Evaluation tables).

The Glyphosate Task Force also submitted scientific publications not listed in the original EFSA request. Germany considers it appropriate to evaluate these publications too in order to reflect the current state of scientific knowledge.

Unfortunately the respective appendices to Volume 3, B.8 (Fate and behaviour) and B.9 (Ecotoxicology) dealing with the literature peer review could not be finalised so far due to the amount of publications submitted. A finalisation is currently foreseen end of February 2015 at the latest.

A new appendix has been prepared for Vol. 3, B.3 (Data on application and further information) dealing with efficacy issues.

The revised RAR has also been sent to the European Food Safety Authority (EFSA), the Co-RMS and the notifier.

Yours sincerely,

A solid black rectangular box used to redact the signature of the sender.

Enclosure

This letter is computer generated and is therefore valid without signature.
