Dear [*] and [*]

Please find attached TABC's response to the EU Commission concept paper "Investment in TTIP and beyond – the path for reform". We welcome the general commitment of the EU Commission to protect foreign investors and to engage in a debate about the set-up of the investment chapter as well as the opportunity to submit comments to the public consultation last year. At the same time we are concerned about several aspects of the proposals outlined in the concept paper. We appreciate the opportunity to share our input to the proposals and stand ready to discuss our response further.

Kind regards,

[*]
