Subject: Meeting with the European Chemical Industry Council - CEFIC - 5 September 2017

Participants:

- [REDACTED] and [REDACTED] (CEFIC)
- [REDACTED] (SG)

Summary:

The meeting was held at the request of CEFIC to present their views on the issue of microplastics, in the framework of the upcoming Plastic Strategy. CEFIC representatives stressed how the issue had registered an increased priority in the agendas of both regulators and of concerned industries. They highlighted the horizontal impacts of potential regulatory measures on microplastics, in particular if introduced through chemical legislation. The SG representatives took note of the position expressed.
