PMEM report for Amflora cultivation 2012 (Plain)

Dear

Thank you for the PMEM report 2012 for amylopectin potato EH92-527-1 which arrived safely on my desk yesterday. I have checked the content of the CDROM and none of the files are identified as being confidential. Please would you confirm that you agree to the entire contents of the CDROM being made available on the SANCO website (please follow the link to see previous entries http://ec.europa.eu/food/plant/gmo/reports_studies/index_en.htm)

Many thanks & regards,
