

**Short bilateral meeting with [REDACTED] ENGIE (21/06/2017)**

The short bilateral meeting (15 min) took place at the margin of the Solar Power Conference where both the Vice-President and [REDACTED] provided key note speeches.

[REDACTED] updated the Vice-President about the Engie's ongoing and planned investments into energy transition in Europe and worldwide, including in solar and digitalisation. Despite major investments in gas infrastructure that Engie planned, [REDACTED] explained how Engie wants to take a leadership role in clean energy transition.

The Vice-President took note of these plans.
