**Attachments:** Options-for-Gas-Supply-Diversification.pdf

Vice-President, dear Maros,

Please find attached the latest study "Options for Gas Supply Diversification for the EU and Germany in the next Two Decades" that the European Centre for Energy and Resource Security (EUCERS) published together with EWI Energy Research & Scenarios gGmbH, mandated by the German Foreign Office. It focuses, among others, on the option of Nord Stream 2.

We do hope that this study can help to deepen the decision making progress with good arguments.

Best,  
Yours

Prof. Dr. t
