

Ministerial on Climate Action (MoCA) – Brussels, 20-21 June 2018
SAVE THE DATE

Dear Minister,

Following the successful inaugural meeting of the Ministerial on Climate Action (MoCA), in Montreal, in September 2017, we kindly ask that you save the dates of 20-21 June 2018 for a second session of the MoCA. The MoCA will be co-convened by Canada, China and the European Union and hosted by the EU in Brussels, Belgium.

2018 will be a critical year to drive ambitious and transformational climate action at the global level. We are committed to completing the Work Programme under the Paris Agreement by the 24th UN Climate Conference in Katowice Poland in December 2018, thus effectively shaping the implementation of the Agreement for years to come. Once again, ministerial leadership will be essential to finding solutions that are comprehensive, balanced, effective and consistent with the spirit of Paris.

The Ministerial on Climate Action will take place close in time to the 2018 Petersberg Climate Dialogue, which is scheduled for the 17th-19th June in Berlin and will be co-hosted by the government of Germany, and the government of Poland, as the incoming President of COP24. We are in close contact with the German and Polish hosts to make sure that the substance and the logistics of the two meetings are planned in a complementary way.

Please kindly save the dates.

The formal invitation to Ministers, agenda and logistical information will follow soon.

Sincerely,

Miguel Arias CAÑETE
