Dear ▆,
Exactly, nobody asked and you're the first one to mention it. We will apply Chatham rules to your speech and I will circulate the word to see if it's the same with other speakers.
Thanks a lot,

▆▆▆▆

▆▆▆▆▆▆ @eeas.europa.eu>:

Dear ▆▆▆▆▆,

I'm not sure anyone informed you when it was decided I should speak at the Thursday event – it needs to be Chatham rules i.e I cannot be quoted by journalists or on Twitter etc. I hope there is no problem – sorry to tell you this late, it just occurred to me that maybe no one asked about this.

Best,

▆

Subject: Re: Brussels Disinfo Lab - Sep 14 event

Dear ▆,

Welcome back ! I hope you had relaxing holidays !

- That would be perfect to add the challenges for the EU ! How much time would you need ? 15-20 minutes ?

- What would be te title we can put in the program ?

- If you have a presentation, could you forward it to ▆▆▆▆ (who reads us in cc) by the end of the week ?

Best,

▆

Dear ████████,

I am now back in the office! Sounds like you have a great event planned, I could of course present what we have seen during the two years we have worked with this and the challenges for the EU? Should I bring a PowerPoint presentation? How long time do I have? Looking forward ☺

Best,

██

Dear ██████, dear all,

Thank you so much for your participation.

I'm available by phone when Ida will come back for holidays to see how we can work on this.

Best.

██

████████████@eeas.europa.eu>:

Dear ██████████,

Thank you for the email and invitation! I'm glad to confirm our participation in the inaugural event on September 14. It would be great if we could discuss a bit later what would be the best form for our participation – ████████████████ will be the one taking care of it and she will be back in the office on September 4.

Best,

██

Dear ████, ██, ██, ████ and ██████,

I hope this email finds you well and that you all found some time to rest during your holidays.

As you may have heard from someone in your team (we actually met many of you :)), we are currently working on the Brussels DisInfolab September event. Due to the workload, we are a reducing (a little) our ambitions and are now mostly looking into an experience sharing session.

Our goal is to connect the numerous ongoing initiatives to each other, and also to use the local developpers/coders community in order to create a common framework on how to fight disinformation processes which are currently jeopardizing liberal values in the western world.

The event will be held on **September 14 at The Aim** (Rue de la cible 50, in Schaerbeek, Brussels), from 3 PM to 10 PM with two main sessions:

- **One sharing of experience session** (3PM to 6 PM), during which we want to put forward different initiatives taken by various stakeholders using different techniques : identify fake news, source fake news, fact check fake news, spread real news.

- **One network building session** (6 PM to 8 PM) during which we will bring different solutions/initiatives together with the developpers/coders/local community and try to ignite collaborations within the disinfo lab.

We will conclude the event with a networking drink.

So far, we're in touch to have presentations from:

- Saper Vedere on the #MacronLeaks (confirmed)

- Bakamo, a hungarian company who worked on categorizing links and audiences during the french presidential elections (confirmed)

- IRI on the Beacon project (confirmed)

- Kyiv DisinfoLab (confirmed)

- FirstDraft/Crosscheck (tbc)

- AFP/InVid_EU project for an image/video fact-check plugin (confirmed)

- Facebook (tbc)

- Twitter (tbc)

- Google News Lab (tbc)

- European Commission (tbc)

- NATO and/or DFR Lab (tbc)

- Reporters Sans Frontières (tbc)

- Media litteracy initiatives (tbc)

- US State Department, Global Engagement Center (tbc)

So far, that's what we've got. We'd love to have you or someone from your team with us on Sep 14 (maybe to present something ?). We can of course have a quick call in the forecoming weeks if you wish to have more info on our event.

Please let me know if you would be interested, especially for the network building session, which is is the core of the Brussels Dinsinfo Lab goals.

Best regards,
