Thanks Christiane. Let me know if the morning slot on Wednesday opens up by any chance.

Thank you.

What about a 30 minute slot between 9.30-10.30am on Wednesday morning?
Same location - Salesforce Lodge, Promenade 78.

Let me know if that would work.

Thank you!

Yes indeed, he has a meeting before. Alternatively we could also look into meeting on Wednesday morning which is wide open for the Commissioner (and I would actually prefer that)

Hi Christiane,

I wanted to ask whether it would be at all possible to move the meeting to 3.30pm? I know you mentioned the Commissioner has another meeting before, but just wanted to check with you in case this has changed. If not, we will still keep our 4pm slot.

Many thanks!

Hi Christiane,

Thanks for this. [REDACTED] does not have a white badge and will therefore not be able to access the Congress Center. The Salesforce Lodge is a 15-minute walk away from the Congress Center, but we are happy to consider other venues as well if that is preferable to you.

Apologies for any inconvenience this causes.

Many thanks,

[REDACTED]

Hi [REDACTED]

Let's provisionally block the 16-16:30 slot on Thursday which is the only one working for the Commissioner. We will try and book a meeting room at the congress centre since he has another appointment there at 16:30.

I will be in touch with a confirmation

Kind regards

Christiane

Dear Christiane,

Please see below for some suggested slots. We could host the meeting at the Salesforce Lodge, Promenade 78 - or do let me know if there is any other venue the Commissioner would prefer.

- Wednesday 23 Jan., 16.00 - 16.30
- Thursday 24 Jan., 10-11.30 (preference for this slot if it works) or 16-16.30

Looking forward to receiving your confirmation on the Commissioner's availability.

Many thanks,

Many thanks Christiane for your response.

I will be able to confirm slots with you later tonight (due to the time difference with the West Coast where [REDACTED] is based).

[REDACTED] would like to discuss with the Commissioner [REDACTED] views on development and uptake of AI in Europe and how to ensure that Europe can maintain a leading position at the global scene. [REDACTED] would also like to exchange with the Commissioner on the issue of bias in AI and the broader topic of ethical use and development of technology. At Salesforce we have taken steps recently to address these topics and [REDACTED] would

like to discuss these as well with the Commissioner. Lastly, [REDACTED] would be very interested to hear from the Commissioner the initiatives the EU is undertaking in the area of AI and explore how Salesforce can feed in this discussion.

Please let me know for any other topic that might be of interest to the Commissioner.

Many thanks,

Good morning [REDACTED]

Commissioner Moedas will unfortunately not be able to participate in your session but he would like to meet with [REDACTED].

As for timing could you indicate to me so wider slots, then I will see if I can find an exact timing in that.

I would also appreciate if you could indicate to me the topics that [REDACTED] would like to discuss, still today.

Best regards

Christiane

Dear Commissioner Moedas,

Happy new year.

I would like to kindly remind you of the request on behalf of [REDACTED], Salesforce [REDACTED], for a bilateral meeting at Davos in the context of the World Economic Forum meeting.

In addition, [REDACTED] is hosting a roundtable discussion with representatives from industry, academia, and the political world, on Artificial Intelligence and [REDACTED] would be delighted to have you join [REDACTED] and also offer the opening remarks or have a firestarter role, if you so wish. You can find the details for this event below.

Could you please let me know if you would be available to join [REDACTED] for this event?

Kind regards,

[REDACTED]

AI Readiness Lunch

Hosted by [REDACTED], [REDACTED]
Salesforce, and [REDACTED], [REDACTED]
Transform.AI.

Wednesday 23 January

12:30 - 13:30

Lokal, Promenade 100, Davos

The narratives that are shaped around new technologies greatly influence the beliefs and views, positive or negative, that people hold about their perceived impact on individuals, society and businesses. It is a fairly common belief, for example, that Japanese accept robots far more easily than Westerners or that Europeans are more resistant to technology, viewing it as a threat to the “social” nature of Europe’s economy.

How do the existing narratives about AI differ across cultures, economies and geographic locations? What is the disconnect between the prevalent narratives and the actual state of the science? What processes and frameworks do business and government need to implement to build trust and ensure employee and citizen readiness as we enter this new AI era?

This will be an off the record discussion with guests seated around one table.
