ANNEX IH: WCPFC Convention Area

ANNEX IJ: SPRFMO Convention Area

ANNEX IK IOTC Area of Competence

ANNEX IL GFCM Agreement Area

ANNEX IIA: Fishing effort for vessels in the context of the recovery of certain Southern

hake and Norway lobster stocks in ICES divisions 8c and 9a excluding the

Gulf of Cádiz

ANNEX IIB: Fishing effort for vessels in the context of the management of Western

Channel sole stocks in ICES division 7e

ANNEX IIC: Management areas for sandeel in ICES divisions 2a, 3a and ICES subarea 4

ANNEX III: Maximum number of fishing authorisations for Union fishing vessels in

third-country waters

ANNEX IV: ICCAT Convention Area

ANNEX V: CCAMLR Convention Area

ANNEX VI: IOTC Area of Competence

ANNEX VII: WCPFC Convention Area

ANNEX VIII: Quantitative limitations of fishing authorisations for third-country vessels

fishing in Union waters

ANNEX I

TACs APPLICABLE TO UNION FISHING VESSELS IN AREAS WHERE TACs EXIST BY SPECIES AND BY AREA

The tables in Annexes IA, IB, IC, ID, IE, IF, IG, IJ, IK and IL set out the TACs and quotas (in tonnes live weight, except where otherwise specified) by stock, and, where appropriate, the conditions functionally linked thereto.

All fishing opportunities set out in this Annex shall be subject to the rules set out in Regulation (EC) No 1224/2009¹, and in particular Articles 33 and 34 of that Regulation.

The references to fishing zones are references to ICES zones, unless otherwise specified. Within each area, fish stocks are referred to following the alphabetical order of the Latin names of the species. Only Latin names identify species for regulatory purposes; vernacular names are provided for ease of reference.

22.12.2009, p. 1).

Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Union control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 (OJ L 343,

For the purposes of this Regulation, the following comparative table of Latin names and common names is provided:

TAC		937	(1)	FR and IE: oppose the proposed unallocated bycatch TAC. IE: the proposed TAC goes against relative stability and is likely to lead to a 'race to fish', and early closure of targeted fisheries where whiting is a bycatch. Not a good approach to potential choke situations
				<u>FR</u> : requests clarification regarding the change from a TAC of 1238 tonnes in the initial proposal to 937 tonnes in the COM non-paper
				<u>IE</u> : can accept TAC level, provided there is consistency with TACs set for other stocks
				<u>UK</u> : will work with other MS and COM to decide how the Union TAC would be accessed, ensuring that it only covers unavoidable by-catches, that no targeted fishing occurs, that sufficient quota is available throughout the year to adequately mitigate choke risk, and that there is no 'race to fish'. Will need a de minimis exemption for whiting in 6a
(1)	Exclusively for by-catches o	f whiting in fisheries	for other specie	s. No directed fisheries for whiting are permitted under this quota.

Precautionary TAC

<u>IE</u> and <u>FR</u>: oppose the proposed allocated by catch TAC

<u>FR</u>: proposes (1) to maintain a TAC allowing a catch level corresponding to unavoidable catches, (2) a quota swap under its swap proposal to cover unavoidable catches

<u>IE</u>: the proposed bycatch TAC goes against relative stability and is likely to lead to a 'race to fish', and early closure of targeted fisheries where plaice is a bycatch. Not a good approach to potential choke situations

<u>UK</u>: concerned about how a Union <u>TAC</u> would be accessed, whilst ensuring that sufficient quota is available throughout the year to adequately mitigate choke risk, that the bycatch TAC is used solely to address choke

<u>UK</u>: it should be clarified whether the 90t proposed is the TAC after the high survivability exemption for the beam trawl segment is applied

Picked dogfish shall not be targeted in the areas covered by this TAC. When accidentally caught in fisheries where picked dogfish is not subject to the landing obligation, specimens shall not be harmed and shall be released immediately, as required by Articles 13 and 48 of this Regulation. By derogation from Article 13, a vessel engaged in the by-catch avoidance programme that has been positively assessed by the STECF may land not more than 2 tonnes per month of picked dogfish that is dead at the moment when the fishing gear is hauled on board. Member States participating in the by-catch avoidance programme shall ensure that the total annual landings of picked dogfish on the basis of this derogation do not exceed the above amounts. They shall communicate the list of participating vessels to the Commission before allowing any landings. Member States shall exchange information about avoidance areas.
