Subject: Open letter : request for public consultation on the revision of the handbook for trade sustainability impact assessments

Dear Ms Malmström
Dear Mr Timmermans,

Please find in annex the open letter FIDH and Misereor, alongside with numerous other organisations, we signed to request a public consultation on the ongoing revision of the handbook for trade sustainability impact assessment.

we would like to insist that the EU should pursue and enhance its efforts to ensure that human rights receive better attention in trade policies, and that the upcoming opportunities should be used to that end.

Hoping to receive positive answer, and remaining at your disposal,

Your Sincerely,

--
