Subject: Fw: meeting with US Chamber of commerce

Debrief meeting with US Chamber of Commerce, 15 May 2018

Participants: Andrea B, [REDACTED]

US Chamber raises concerns expressed in usual fora on consequences of Brexit and related EU legislative proposals (in particular EMIR and the ESAs review).

US Chamber comments positively on the US Treasury review of US FS legislation (so called DFA review): the UST recommendations propose targeted adjustments which do not undermine the objectives of internationally agreed reforms. US Chamber also values the EU US regulatory dialogue.

US Chamber interested in the forthcoming EC proposals on sustainable finance whilst commenting that SF initiatives in the USA are market based.

Happy to provide a more detailed debrief.
