Dear Commissioner Malmstrom -

Just wanted to drop you a short note to thank you for making time to meet with Art.4.1(b) and me yesterday. I very much enjoyed seeing you again and appreciated your insights. Again, congratulations on a terrific year to date. Your ambitious trade agenda has been widely noticed and, as discussed, is critically important to companies like GE whose strong European footprint depends on access to global markets.

I have attached the WSJ piece by Art.4.1(b) that I mentioned -- worth a read. I will also follow up on the other item we discussed with your team in DC when I return.

Please do not hesitate to let us know if we can ever be of assistance.

Best - Art.4.1(b)
