Subject: EU Battery Alliance

Dear [REDACTED], dear Mr. Szapiro,

Thank you very much for taken the initiative to build an EU Battery Alliance's umbrella. KLiB very welcomes this initiative.

KLiB is an industrial association with 50 members along the whole value chain of batteries. With our members, we have discussed ways to build up a large scale cell production since several years. We would appreciate to contribute to the Battery Alliance, by our experience and knowledge concerning the discussion around cell production.

I am looking forward to the next steps building the EU Battery Alliance.

Best regards,

[REDACTED]
