

1. TEP overview¹

On 30th March 2015, the TEP was only composed of Technical Equipment owned by Member States and Schengen Associated Countries (MS/SAC).

The table below shows the composition of the TEP in March 2015. As mentioned in the TEP Monthly Report for February 2015, Frontex, in close cooperation with the MS/SAC, has been revising and updating the OPERA database by removing or replacing those assets that were no longer available and which would never be deployed within Frontex joint operational activities. As the result the equipment registered currently in the TEP better reflect the resources available for deployment in Joint Operations.

	OPV	CPV	CPB	FWA	Helicopters	TVV	Patrol cars	Handheld surveillance equipment	Equipment for border checks	Dogs
March 2015	18	21	37	33	26	19	20	58	21	17

TEP March 2015
