**Subject: Initial Information on the outcome of the evaluation of proposals
FP7 Call for Proposals: FP7-SEC-2013-1
Proposal No.: 607784
Acronym: SIIP**

Dear Mr. Hazzani,

The REA services with the help of independent experts have recently evaluated the proposals submitted to the above call. This includes the proposal referenced above, for which you are the coordinator.

The proposals were evaluated against the criteria published for the call. The enclosed **Evaluation Summary Report** records the consensus view of the independent experts and the scores that your proposal has achieved.

Based on this independent evaluation all proposals that passed the evaluation thresholds will be placed on the ranking list.

For your information, in this particular call it is estimated that funds will be available to finance around 66 proposals out of 160 that have passed the evaluation thresholds. However, this letter cannot be considered as an offer of funding for your proposal.

You will be informed in due course by the REA of the outcome of the Commission's formal decision on your project.

Please inform any other participants in this proposal of the content of this letter.

About the redress procedure

The redress procedure for submission and evaluation¹ is concerned with how your proposal was handled in the evaluation and eligibility-checking process. It is **not** an automatic re-evaluation. Please note that new information or clarifications that should have been in the proposal will not be taken into consideration. Furthermore, the judgement of appropriately qualified groups of experts will not be called into question.

Any request for redress must be submitted by the applicant before the deadline mentioned above, via the following website <https://webgate.ec.europa.eu/research/participants/redress>. More information on redress can be found at the same site.

Enclosure: Evaluation Summary Report

¹ Rules for the submission of proposals and the related evaluation, selection and award procedures, 28.02.2011, C(2011) 1132
