Dear Executive Vice-President, Dear Mr. Timmermans,

Building on our constructive collaboration in recent years, in particular the Circular Economy Package and the SUP Directive which set a legislative precedent and now drives the market with a clear signal for recycled plastics, SUEZ would like to contribute actively to your ambitious European Green Deal.

SUEZ shares your vision and ambition and is committed to support cities, municipalities, industries and communities in the transition towards a climate-neutral, resource efficient, circular Europe.

Our know-how and expertise on resource management, in particular water, waste and air, can help you in achieving some of the milestones of the Green Deal, such as a zero pollution Europe; Transition to a circular Europe, or Achieving Climate neutrality.

Our new **CEO Bertrand Camus** has recently announced **his comprehensive strategic plan entitled *Shaping SUEZ 2030*** which intends to position Suez for the opportunities and the challenges of the next decade and become the global leader in environmental services. You both share a common ambition for Europe: restore and preserve the fundamental elements of the environment - water, air and soil.

Mr. Camus would be delighted to have the opportunity to meet you to exchange on the challenges and opportunities that Europe is facing when it comes to environment protection, the climate crisis and the preservation of our natural capital and resources.

He would be delighted to meet you at your best convenience on one of these dates: **4 or 6 February 2020; 3, 5, 17 or 26 March 2020.**

I take the opportunity of this message to share with you our **Manifesto *Making Europe Sustainable & Attractive*** which sets our priorities and recommendations for the next 5 years to come.

Should you have any questions, do not hesitate to contact me.

Best regards,
