Dear All,

I believe this email finds you well and thank you very much for time and attention. We both share a common goal to have a greener and more sustainable EU and world. It is for these reasons that any initiatives and efforts are welcome in this direction.

The present is to share with you my personal contribution on this specific theme. Since you have been sitting on such an important chair, it is important to have visibility and endorsements on such important topics in order to raise sensibility and awareness.

Thank you!

With all my best regards and wishes
