Subject: GLOBE EU recommendations for fast-tracking a circular economy in the EU

Dear First Vice-President Timmermans, dear Frans,

It is with great pleasure that I share with you GLOBE EU's recommendations for fast-tracking a circular economy in the EU. These recommendations were developed together with the Bee Group, an advisory body of progressive companies, and various stakeholders. They were presented to Vice-President Katainen at the GLOBE EU high-level conference on March 19 (see www.globe-eu.org for more details).

I would appreciate it if you would share this document with interested members of your team.

GLOBE EU is a cross-party organization of Members of the European Parliament. It acts as a platform for debating the viability of ambitious and more far-reaching policy proposals on sustainability and facilitates the coordination of political action among like-minded legislators in the European Parliament and at Member State level. GLOBE EU is part of the GLOBE network, linking legislators from all over the world and boosting their efforts on climate change.

With kind regards,

Sirpa Pietikäinen, MEP

President of GLOBE EU
