DIRECTORATE-GENERAL
REGIONAL POLICY
Audit
The Director

Brussels,
REGIO J2/BS/id/ D(2012) 175473

Subject: **Audit of the functioning of the management and control systems as required by articles 60 (a) and 60 (b) of (EC) Regulation 1083/2006 and articles 13(2) to 13(4) of (EC) Regulation 1828/2006**

**Audit of Regional Development Operational Programme
CCI 2007RO161PO001**

Ref.: **Mission No. 2011/RO/REGIO/J2/956/1 (to be used in following correspondence)**

Your Excellency

I am writing to inform you that the Directorate General Regional Policy has analysed the reply received from the national authorities to the related draft audit report of the audit mission referred to above, namely your replies dated 11 October (ARES 1076539), 24 October (ARES 1129227), 31 October 2011 and 22 February 2012 (ARES 212310).

Please find enclosed the **final audit report** setting out the Commission's final position on all the remaining open findings and related actions and recommendations.

The irregular expenditure detected during the audit and the proposed financial corrections is presented in **Annex II**.

I request that you treat the enclosed audit report as confidential until the follow up procedure set below has been brought to a final conclusion. If the whole or part of the report is transmitted to persons concerned by the audit to enable them to provide comments, please ensure that the information set out in this paragraph accompanies the transmission.

His Excellency Mr Mihnea Ioan Motoc
Ambassador Extraordinary and Plenipotentiary Permanent Representative
Permanent Representation of Romania to the EU
Rue Montoyer / Montoyerstraat 12

G:\13-AUDIT MISSIONS 2007-13 PROGR PERIOD\EPIM Bridging the Assurance Gap\RO\2011 RO REGIO J2 956 1 Regional
OP\REPORTS\Final report\RO follow up letter EN.doc

The attention of the national authorities is drawn to the fact that the present letter can lead to financial corrections decided by the Commission under Article 99 of Regulation (EC) No 1083/2006. To avoid any misunderstanding, the legal procedure is set out in Annex III to the present letter.

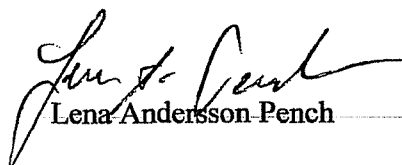

In accordance with this procedure, the national authorities may either inform the Commission of their formal acceptance of the financial corrections proposed, or object to the observations made by the Commission, in which case they will be invited to a hearing by the Commission at which both sides shall make efforts to reach an agreement regarding the observations and the conclusions to be drawn from them.

The national authorities are requested to inform the Commission on the implementation of actions and recommendations set out in the final audit report within two months of receipt of the national language version of this final audit report by the Permanent Representation.

Given that any suspension or reduction of the Community assistance to the projects may adversely affect final beneficiaries, I therefore formally request that you ensure that these persons are duly informed and placed in a position to effectively make known their views on the information on which the proposed decision is based. I would be grateful to receive any information on this matter.

Furthermore, you are requested to confirm that findings which have a financial impact on the EU budget exceeding €10.000 have been reported to OLAF in the IMS system for reporting irregularities and to provide the relevant references.

Yours faithfully

Lena Andersson-Pench

ANNEX I – COMMISSION'S OBSERVATIONS, CONCLUSIONS AND RECOMMENDATIONS

Analysis of the measures taken under the action plan for the remedial of systemic weaknesses in relation to key requirement 4: Adequate management verifications (in particular public procurement verifications)

1. Significant deficiencies identified:

The audit found significant irregularities in relation to public procurement process for the contracts awarded under the projects selected in the sample, namely:

- i) use of discriminatory technical criteria for selection stage of restricted procedures;
- ii) unjustified use of accelerated procedures;
- iii) incorrect use of Article 122 of national Ordinance 34/2006 (additional works contracted as similar works through negotiated procedure without publishing a contract notice).

On the basis of the projects based findings and due to the fact that the irregularities were not detected by the Managing Authority, ANRMAP and UCVAP (as national bodies for public procurement verifications), nor by Certifying Authority, the deficiency was considered systemic. Therefore, remedial measures were included in the action plan to be implemented by the MS (see Table 2 to the audit report).

2. Member state reply:

Romanian authorities replied on 11 October 2011 (ARES 1076539). Additional information was received on conflict of interest by latter ARES 1129227/24.10.2011. On 31 October 2011, Romanian authorities submitted the audit reports issued by AA on the compliance of UCVAP and ANRMAP. By letter of 22 February 2012 (ARES 212310), the Romanian authorities accepted the financial corrections proposed by the Commission under findings no. 2, 3, 4 and 5.

Further to the meetings which took place on 16/17 and 28 November between Commission's services and Romanian authorities (MA, AA and ACIS), further commitments were taken by Romanian authorities by letter Ares(2011)1304614 - 05/12/2011.

Tables 1 and 2 below provide more detailed information on the information submitted by the Romanian authorities.

3. Commission analysis:

i) Effective functioning of the management and control system with regard to public procurement verifications

a) The Commission acknowledges that the tasks and responsibilities of all bodies involved in public procurement have been better defined and that the accountability of ANRMAP and UCVAP has been formally reinforced. Following the assessment of the cooperation agreements concluded between MA, ANRMAP and UCVAP on 9 September 2011, the Commission draw attention on the involvement of ANRMAP in the ex-post verifications. the Romanian authorities accepted the recommendation and concluded Addendum no. 1 to the agreement on 24 November 2011.

b) Commission takes note that ANRMAP issued, as requested, new guidelines for the interpretation of public procurement law. Nonetheless, by letter Ares(2011)1252930 - 23/11/2011, Commission draw attention on:

- Non-retroactivity of the new guidelines for the interpretation of the public procurement law;
- Proportionality on the application of the general principles of public procurement.

c) By letter of 31 October 2011, the AA submitted two audit reports on the assessment of the conformity of the ex-ante system for the verification of public procurement. Even though, the reports confirm the compliance of UCVAP and ANRMAP, the effective functioning of the management and control system in respect to public procurement verifications could not be tested.

Recommendation:

AA should confirm based a representative sample of transactions, the effective functioning of the new set up for management verifications, notably in respect to public procurement verification.

ii) Corrective measures to be taken in respect to significant deficiencies identified – rescreening of past expenditure by MA

As part of the action plan, the managing authority was requested to verify all works contracts under the priority axis 2.1 to screen for the existence of discriminatory selection criteria in the tender notice, unjustified use of accelerated procedure and additional works contracted as similar works.

MA for Regional Development OP has screened all works contracts under axis 2.1, found irregularities and proposed corrections in amount EUR 20.5 million for in 29 contracts, representing 2.7% of the contracted amount.

Following the review of the above mentioned action based on a sample of operations already verified by MA, the Commission was not satisfied with regard to the quantification of the financial impact of the errors found by the Romanian authorities. In addition, the proposed corrections did not take into account notably cases of unjustified use of accelerated procedure and shortened deadlines. Moreover, managing authority did not carry out specific verification with regard to conflict of interests.

Following the audit carried out for the assessment of the verifications performed by MA, the audit authority identified irregularities based on which financial corrections were proposed

following the audit work carried out within the context of rescreening all public procurement contracts at national level, amount to 71.85 million Euro for the Regional OP out of which 62.60 million Euro are related to Axis 2.1. The proportion of corrections proposed for Axis 2.1 is 10.60% of the value of the contracts signed.

The results of the AA's audit work confirm the assessment of the Commission on the verifications carried out on a sample of contracts checked by MA. The Commission considered that MA did not identify all errors and underestimated the level of necessary corrections to be made. In particular, MA did not identify all cases of shortened deadlines and unjustified use of accelerated procedure.

Recommendation:

Audit work should be carried out by AA in order to follow-up the effective correction process.

iii) Additional actions requested

a) Fraud prevention and detection / conflict of interest verifications

In order to implement the legislative framework on the prevention and detection of cases of conflict of interests, necessary tools should be made available for the managing authorities to carry out consistent verifications. The procedural framework should be aligned accordingly and management authorities should include checks on conflicts of interests. In cases of suspicion of fraud or conflict of interest, the expenditure under the related operation should be decertified until the finalisation of the investigation.

Recommendation:

As concerns the suspicion of fraud and conflict of interest cases, Commission recommends:

- awareness campaigns, and
- training initiative on the basis of a detailed vademecum (legislative frame, institutions' roles, tools, code of conduct and transparency initiative) at two levels: (a) managing authorities and intermediate bodies and (b) final beneficiaries with a clear timetable, to be implemented regularly by MA;
- inclusion of the conflict of interest issue within the management verifications;
- development of specific tools to allow for the verification on conflict of interest;
- expenditure incurred under contracts for which suspicions of fraud arise should not be certified up to the end of the investigations carried out by the appropriate bodies.

b) Other structural weaknesses

The assessment of the information submitted by the Romanian authorities revealed certain structural problems of a systemic nature which might have impact for all operational programmes. Following the review of the information submitted by MA, it was noticed that decisions on establishing irregularities were often directly linked to the recovery process. This

state of facts lead to inconsistent approaches as different decisions had been taken in respect to similar findings.

In addition, Commission could not identify the relevant Article of Ordinance 66/2011 which regulates the cases of disagreements between managing authorities and audit authority.

Recommendation:

- Decisions on establishing irregularities should be decoupled from the recovery process. Managing authorities (management verifications) should decide on corrections for expenditure to be certified to the Commission regardless of the subsequent recovery process at national level. In the case of the Regional operational programme it was also noticed that the corrective measures were not applied consistently for similar type of findings.
- The legal framework should provide for the corrective mechanism to be implemented in cases of disagreements between managing authorities and audit authority.

As concerns the recommendations mentioned under points i) – iv), further commitments have already been taken by the national authorities through Ares(2011)1304614 - 05/12/2011 following the meeting held between Commission's services and the Romanian authorities on 28 November.

Based on the results of the actions plan already implemented in 2011 by MA for Regional Development OP and based on the further commitments taken by the Romanian authorities through the above mentioned letter, Commission services decided for the Regional Operational Programme on a provisional correction of 10% to be applied to the past and new expenditure by the Romanian authorities and to be withheld from the payment claims up to the end of the contradictory procedure¹. By Commission's letter of 1 of March 2012 (Ref. Ares(2012)242234 - 01/03/2012), Romanian authorities were reminded the provisional status of the withholding measures which are to be imposed by end of June 2012.

¹ See DG Regio letter Ares(2011)1399042 - 22/12/2011.

ANNEX II - SUMMARY OF IRREGULAR EXPENDITURE AND PROPOSED FINANCIAL CORRECTIONS

Finding N°	Contract	Description of finding	Amount on irregular expenditure (Basis for calculation of financial correction) - Lei -	% Rate of assistance ¹	% Financial correction	Amount of financial correction (C4xC5xC6) - Lei -

Finding Nº	Contract	Description of finding	Amount on irregular expenditure (Basis for calculation of financial correction) - Lei -	% Rate of assistance ¹	% Financial correction	Amount of financial correction (C4xC5xC6) - Lei -
1	2	3	4	5	6	7
	International (works for 9 projects)					
6.	Works contract – [REDACTED] [REDACTED] [REDACTED] [REDACTED] [REDACTED]	Ineligible expenditure related to additional works.	173.667.721,41 lei	86.5%	Irregular expenditure not expressed in percentage	3,627,416.08 (in relation to project SMIS code 4272)
7.	Framework agreement for supervising services: – [REDACTED]; [REDACTED] [REDACTED] (covers supervision for 33 work sites)	Noncompliance with the contractual provisions	Payments related the [REDACTED] subsequent contracts should be made at the percentage initially tendered (0.35% of the value of supervised works)	86.5%	Irregular expenditure not expressed in percentage	138.278,42 (difference between the amounts requested under the subsequent contracts and amounts paid by the MA calculated based on 0.35% up to June 2012)

Note: When several deficiencies are found in the same system, the flat rates of correction are not cumulated, the most serious deficiency being taken as an indication of the risks presented by the control system as a whole. (Guidelines on the principles, criteria and indicative scales to be applied by Commission departments in determining financial corrections under Article 39(3) of Regulation (EC) No 1260/1999.

ANNEX III – PROCEDURE FOR SUSPENSION OF PAYMENTS AND APPLICATION OF FINANCIAL CORRECTIONS

- (1) Under Article 92(1) of Council Regulation (EC) No 1083/2006, the Commission shall suspend the interim payments in question.
- (2) Under Article 99(1) of Council Regulation (EC) No 1083/2006, the Commission may make financial corrections by cancelling all or part of the Community contribution to an operational programme where, after carrying out the necessary examination, it concludes that:
 - (a) there is a serious deficiency in the management and control system of the programme which has put at risk the Community contribution already paid to the programme;
 - (b) expenditure contained in a certified statement of expenditure is irregular and has not been corrected by the Member State prior to the opening of the correction procedure under this paragraph;
 - (c) a Member State has not complied with its obligations under Article 98 prior to the opening of the correction procedure under this paragraph.
- (3) Under Article 100(1) of Council Regulation (EC) No 1083/2006, before taking a decision on a financial correction, the Commission shall open the procedure by informing the Member State of its provisional conclusions and requesting the Member State to submit its comments within two months.

Where the Commission proposes a financial correction on the basis of extrapolation or at a flat rate, the Member State shall be given the opportunity to demonstrate, through an examination of the documentation concerned, that the actual extent of irregularity was less than the Commission's assessment. In agreement with the Commission, the Member State may limit the scope of this examination to an appropriate proportion or sample of the documentation concerned. Except in duly justified cases, the time allowed for this examination shall not exceed a further period of two months after the two-month period referred to in point (3).
- (4) Under Article 100(2) of Council Regulation (EC) No 1083/2006, the Commission shall take account of any evidence supplied by the Member State within the time limits mentioned in point (3).
- (5) Under Article 100(3) of Council Regulation (EC) No 1083/2006, where the Member State does not accept the provisional conclusions of the Commission, the Member State shall be invited to a hearing by the Commission, in which both sides in cooperation based on the partnership shall make efforts to reach an agreement concerning the observations and the conclusions to be drawn from them.
- (6) Under Article 100(4) of Council Regulation (EC) No 1083/2006, in case of an agreement, the Member State may reuse the Community funds concerned in conformity with the second subparagraph of Article 98(2).
- (7) Under Article 100(5) of Council Regulation (EC) No 1083/2006, in the absence of agreement, the Commission shall take a decision on the financial correction within six months of the date of the hearing taking account of all information and observations submitted during the course of the procedure. If no hearing takes place, the six-month period shall begin to run two months after the date of the letter of invitation sent by the Commission.

	<p>framework agreement, the parties may under no circumstances make substantial amendments to the terms laid down in that framework agreement, in particular in the case referred to in paragraph 3."</p> <p>- provisions of the initially concluded framework contract, paragraph 4.2: "The subsequent contracts will be awarded by re-launching the competition with the enterprises signing the framework contract, which will tender a percentage applied at the value of the specific contract for which the service will be provided; this percentage shall not be over the maximum percentage tendered for the award of the framework contract." (i.e. 0.35%)</p> <p>The contracts concluded subsequently with the [REDACTED] do</p>					<p>texts considered by the Beneficiary is not applicable.</p> <ul style="list-style-type: none"> - The Beneficiary and the providers of services introduced under Article 7.2 of the framework agreements a maximum tendering rate of 0.65%, thus altering the outcome of the tendering procedure whereby the tender ranked on the first position had a value of 0.35% in breach of the provisions of Article 200 of Government Emergency Order No 34/2006, Article 82(1) and (4) of Government Decision No 925/2006. - Following the reiteration of the tendering procedure, the Contracting Authority did not obtain any improvement in the price, which led to the reiteration of the competition under Article 68(2)(b). In these circumstances, the Contracting Authority had the obligation to award the subsequent contract to the tenderer which was ranked on the first position under the procedure applied for the conclusion of the framework agreement, by considering the conditions and elements set out in the latter's initial tender, i.e. [REDACTED] [REDACTED] for the value of 0.35% of the value of works subject to supervision in accordance with the provisions of Article 69(6) of Government Decision No 925/2006. - Considering that the Beneficiary, 	<p>percentage to be applied to the value of the works supervised; the total value of the correction depends on the expenditure declared by the final beneficiary.</p> <p>Provided that the Romanian authorities corrects all payments related to the contracts concluded with C.S.T SRL according to the above mentioned reasoning, the Commission's services consider this finding closed within the present contradictory procedure.</p> <p>Follow-up of the corrective measures will be done during future audit work.</p>

N°	FINDING	ACTION TO BE TAKEN/ RECOMMENDATIONS	RESPONSIBLE BODY	DEADLINE (DAYS)	PRIORITY HIGH/ MEDIUM/ Low	ACCEPTANCE BY THE MEMBER STATE / COMMENTS FROM THE MEMBER STATE	FINAL POSITION OF THE COMMISSION
	<p>not comply with the provisions of the framework agreement as the price to which the contract was awarded exceeded the percentage initially tendered.</p> <p>Therefore, the amount based on the (originally agreed) percentage included in the framework contract is considered as irregular.</p>					<p>namely the Administrative Territorial Unit of Ilfov county, concluded the subsequent services contract No 14/04 May 2010 in breach of the national legislation on public procurement, and taking into account the provisions of Article 9(25) of the grant contract, all the expenses incurred by the Beneficiary with technical consulting services as regards the supervision of works under Budget line 3.5 are ineligible.</p> <p>Considering that, until the date when the checks were carried out, no sum was settled to the beneficiary's account under the subsequent services contract No 14/4 May 2010 concluded with [REDACTED] the Managing Authority under the Regional Operational Programme will not reimburse any expense incurred by the Administrative Territorial Unit of Ilfov county under this contract.</p>	
Comment on the financial selection criteria used by ATU Buzau and ATU Ilfov contracting authorities							
8.	Commission services noticed that both contracting authorities have used restrictive financial criteria in the selection stage of 3 public procurement procedures (i.e. liquidity ratio over 100% and solvency ratio over	ANRMAP should be more pro-active when suspecting use of restrictive selection criteria which might result in a limitation of competition.	ANRMAP	Permanent	High	No reply has been included in present document	Following the measures implemented under the action plan for lifting the interruption of payments deadlines, the Commission closes this finding under

N°	FINDING	ACTION TO BE TAKEN/ RECOMMENDATIONS	RESPONSIBLE BODY	DEADLINE (DAYS)	PRIORITY HIGH/ MEDIUM/ Low	ACCEPTANCE BY THE MEMBER STATE / COMMENTS FROM THE MEMBER STATE	FINAL POSITION OF THE COMMISSION
	35%). Several months later (July 2010), national legislation in place (national ordinance 34/2006) changed stating that, liquidity ratio should not be over 100% while solvency ratio should not be used as selection criteria.						the present contradictory procedure.
KEY REQUIREMENT 2: ADEQUATE SELECTION OF OPERATIONS							
Weaknesses identified							
9.	Information and communication The applicants guide was <u>modified</u> twice by corrigenda and republished once without interrupting the session for call for projects.	We take notice that the modifications were mainly formal ones. However, a good practice would be to interrupt the call for projects in order to allow the applicants to adjust their applications appropriately.	MA	Permanent	Low	Accepted recommendation The Guidelines for Applicants relating to the major areas of intervention 2.1 and those relating to other major areas of intervention have been subject to changes following certain legislative updates, streamlining of certain procedural aspects and areas, the introduction of recommendations from auditors, in particular those related to the process of the technical and financial evaluation, and those related to certain aspects in the technical and economic documentation etc. Such measures did not affect the actual process involving the design of projects. Moreover, when new procedures were initiated for the major areas of intervention 4.3, 5.3, and 5.3, the National Centres for Technical Information and Promotion, the guidelines	Commission's services take note of the information provided by the MS. The Commission's services consider this finding closed.

Nº	FINDING	ACTION TO BE TAKEN/ RECOMMENDATIONS	RESPONSIBLE BODY	DEADLINE (DAYS)	PRIORITY HIGH/ MEDIUM/ Low	ACCEPTANCE BY THE MEMBER STATE / COMMENTS FROM THE MEMBER STATE	FINAL POSITION OF THE COMMISSION
						applicants were also subject to changes follow the preliminary public consultations. It is noteworthy that the Guidelines relating to the m area of intervention 2.1 were republished follow the beneficiaries' requests to have a consolidated version of the document. However, ROP MA be able to apply this measure to the subsequent c for applications and/or within the follow programming period.	
10.	<p>Equal treatment of final beneficiaries</p> <p>A significant number of technical <u>clarifications</u> were requested by the IB's during compliance stage verification or by the external evaluators during the financial and technical evaluation of projects. It can be argued that some of the clarifications requested improved the initially submitted projects. The decision on requesting or not clarifications is a subjective one and could lead to un-equal treatment between final beneficiaries.</p>	In order to ensure equal treatment and non-discrimination between applicants, managing authority should clearly identify types of clarifications that could be requested.	MA	60 days	Medium	<p>Accepted recommendation</p> <p>We would like to point out here that this issue was also approached with the Audit Authority. ROP MA tried to establish a clear distinction between the requests for clarifications and the requests aimed at supplementing/improving the projects. From the viewpoint of ROP MA, the request for clarifications must not however allow the applicant to bring new documents which should have been annexed to the financing application, which was checked in the stage of compliance and eligibility. Nevertheless, during the technical and financial evaluation, the feasibility study/the documentation for the endorsement of the intervention works can have certain non-correlations or certain incomplete parts. Those aspects must be corrected. Otherwise, an extremely high rate of projects should be rejected due to these inconsistencies. Based on our experience as regards checks, most of the reasons for rejection are given by the absence of documents (subject to the compliance and eligibility stage), such as deeds of property, the</p>	<p>Commission's services take note of the information provided by the MS.</p> <p>The Commission's services consider this finding closed.</p>

N°	FINDING	ACTION TO BE TAKEN/ RECOMMENDATIONS	RESPONSIBLE BODY	DEADLINE (DAYS)	PRIORITY HIGH/ MEDIUM/ LOW	ACCEPTANCE BY THE MEMBER STATE / COMMENTS FROM THE MEMBER STATE	FINAL POSITION OF THE COMMISSION
						<p>endorsement from the Ministry of Education and Research, the Technical/technical economic endorsement from the Ministry of Public Health, the Environmental Sheet required under the Urban Planning Certificate etc) or even the extremely low quality of the feasibility study, including the Cost Benefit Analysis which was contrary to the specific recommendations (during the technical and financial evaluation) etc. However, any dissatisfied Beneficiary has the possibility to send an objection to ROP MA.</p> <p>However, considering that most of the projects which are pending completion at this stage are of extremely low, and that the submission of projects is suspended in most regions and areas, we intend to settle this issue during the following programme period.</p>	
11.	Technical evaluation of projects <u>Technical evaluation of projects</u> is performed mainly documentary. This approach may lead to approval of projects not well prepared. As a consequence, many of the problems occurring during the implementation of projects seem to be due to low quality of the feasibility study and	Managing authority should take measures and strengthen its verifications in order to ensure compliance with the principle of sound financial management as it is stipulated in Article 14 (1) of Regulation 1083/2006. An early on-the-spot visit could mean a more robust check on the quality and maturity	MA	60 days	Medium	Accepted recommendation This measure has already been applied for the major area of intervention 1.1 as of June 2010 (the Growth and Urban Development Poles operations), the procedure provides that the Feasibility Study and the Brief Design be subject to an on-the-spot visit made by independent assessors. Moreover, the meeting with the Beneficiary for clarifications is also envisaged. In addition, we point out that in connection with the quality of the Feasibility Study and of the Brief Design, it is dependent in most cases by the very poor expertise work or other studies. Another major improvement	Commission's services take note of the information provided by the MS. The Commission's services consider this finding closed.

N°	FINDING	ACTION TO BE TAKEN/ RECOMMENDATIONS	RESPONSIBLE BODY	DEADLINE (DAYS)	PRIORITY HIGH/ MEDIUM/ LOW	ACCEPTANCE BY THE MEMBER STATE / COMMENTS FROM THE MEMBER STATE	FINAL POSITION OF THE COMMISSION
	<p>technical design, as well as differences with the reality on the field.</p> <p>Moreover, the <u>on-the-spot visit by the IB</u> is performed at a very late stage (just before the signature of the financing contract); in addition, the main purpose of the visit is to check the existence of the original documentation submitted in the financing application.</p>	of the project.				<p>of the procedure was that independent assessors may request the technical expertise work in order to see whether the Feasibility Study takes over the solutions proposed in the expertise work/studies.</p> <p>In addition, almost 99% of the technical financial evaluations are completed, with exception of the major area of intervention Growth and Urban Development Poles.</p>	
12.	<p>Overlapping compliance verifications</p> <p>Audit team notices <u>overlapping verifications</u> (compliance and documentary verifications performed by 2 employees in the IB). These verifications are in line with the procedural requirements of the managing authority, but they are not focussed on the risk areas (i.e. there is no qualitative approach of</p>	Although the procedures have been improved by the managing authority since launching the programme, they could be further streamlined in order to avoid unnecessary administrative verifications.	MA	Permanent	Low	<p>Accepted recommendation</p> <p>We agree that the compliance and eligibility stages are likely to have some cases of overlapping as regards compliance.</p> <p>This approach was made in order to ensure a single decision for the two sub-stages of verification. From our viewpoint and based on our experience, the connection between the checks on compliance and eligibility is closely related – certain headings in the compliance grid were erroneously interpreted, e.g. in the case of projects developed in partnership, the related documents, the existence of CVs, the Cost – Benefit Analysis included in the Feasibility Study, not separately etc)</p>	<p>Commission's services take note of the information provided by the MS.</p> <p>The Commission's services consider this finding closed.</p>

Nº	FINDING	ACTION TO BE TAKEN/ RECOMMENDATIONS	RESPONSIBLE BODY	DEADLINE (DAYS)	PRIORITY HIGH/ MEDIUM/ Low	ACCEPTANCE BY THE MEMBER STATE / COMMENTS FROM THE MEMBER STATE	FINAL POSITION OF THE COMMISSION
	the evaluations for visits on-the-spot).					However, considering that most of the projects have been completed at this stage or their number is significantly low, we intend to approach this issue during the following programming period.	

TABLE 2

FOLLOW UP OF THE ACTION PLAN BY THE ROMANIAN AUTHORITIES

N°	Audit finding	Summary of finding	Actions description & Deliverables to be provided within 2 months period	Responsible body / Documents provided
1.	Effective functioning of the management and control system with regard to public procurement verifications	<p>Following the verifications carried out, irregularities have been identified in respect to the award of 3 out of 4 works contracts. These contracts were concluded for works related to 12 road projects, and represent <u>around 84% of the eligible expenditure of the projects included in the sample</u>. In addition, findings have been raised in relations to 2 service contracts.</p> <p>The following significant findings identified distorted the competition by limiting the access to the market of the bidders:</p> <ul style="list-style-type: none"> i) use of discriminatory technical criteria for selection stage of restricted procedures; ii) unjustified use of accelerated procedures; iii) incorrect use of Article 122 of national Ordinance 34/2006 (additional works contracted as similar works through negotiated procedure without 	<p>Actions:</p> <p>i) The managing authority is reminded that it has overall responsibility for the management verifications. It can choose to entrust some or all of these tasks to other bodies. However, it cannot delegate the overall responsibility for ensuring that they are properly carried out. Therefore, where certain tasks have been entrusted to other bodies, the managing authority should, in its supervisory capacity, obtain assurance that the tasks have been properly carried out.</p> <p>In this view, as routine supervision and, certainly, where managing authority has concerns that the tasks are not being properly carried, it should carry out own verifications by examining a sample of files. The number of files in the sample should be based on a risk assessment taking as well into account the quality/reliability of the work performed by ANRMAP and UCVAP.</p> <p>ii) The <u>tasks and responsibilities of all bodies involved in public procurement</u> (managing authority, ANRMAP and UCVAP) <u>should be clearly defined</u> for each step of the process so that checks tackle risk areas and identify in due time problems and irregularities and propose remedial actions and/or financial corrections.</p> <p>iii) It is recommended to formally reinforce the</p>	<p>MA, ANRMAP, UCVAP</p> <p>The Romanian authorities have provided the following information (letter Ares(2011)1076539/11.10.2011, ARES 1129227/24.10.2011 and letter no 653/31.10.2011), namely:</p> <ul style="list-style-type: none"> a) Reports on the management verifications carried out by the managing authority; b) Revised agreement of 9 September 2011 on the set up of the system related to the verifications of public procurement procedures, together with legal framework ensuring the accountability of the bodies entrusted with the checks on public procurement procedures. The definition of tasks and responsibilities of all bodies involved in the public procurement verification system have been redefined and the accountability of ex ante control bodies (ANRMAP and UCVAP) have been formally reinforced. These two public procurement bodies are now subject to audits performed by the audit authority. c) Description of the risk factors taken

N°	Audit finding	Summary of finding	Actions description & Deliverables to be provided within 2 months period	Responsible body / Documents provided
		<p>publishing a contract notice)</p> <p>Therefore, in the opinion of the auditors, the basic public procurement principles of equal treatment and non-discrimination and sound financial management have not been complied with.</p> <p>In addition, despite several layers of verifications, neither ANRMAP and UCVAP, nor the managing authority identified the irregularities presented below.</p>	<p>accountability of the two bodies (ANRMAP and UCVAP) entrusted to regulate and verify ex ante the public procurement procedures in Romania.</p> <p>The institutions verifying ex ante public procurement aspects should act as delegated bodies, part of the management and control systems of the operational programmes, being legally accountable for their actions, while the managing authority should remain ultimately responsible for the correct spending of funds.</p> <p>When re-defining relationship and division of tasks between managing authority, ANRMAP and UCVAP, the process should be based on the provisions of the "Guidance document on management verifications to be carried out by Member States on operations co-financed by the Structural Funds and the Cohesion Fund for the 2007 – 2013 programming period" (COCOF 08/0020/04).</p> <p>iv) With regard to the contents of the management verifications, the responsible bodies should <u>focus on the substance and on the risky areas</u>, rather than on the formal aspects.</p> <p>The content of tendering notice, regarding the selection and award criteria, the respect of the legally applicable deadlines and the adequacy of the tendering procedure (in particular for negotiated procedure) shall be duly checked ex-ante by ANRMAP, in full, and by the MA in its supervisory role on a sample basis.</p> <p>The transparency and the fairness of the procurement procedure and, in particular, the selection and the award phases by the correct</p>	<p>into account for the verifications performed. According to the revised set-up of the management and control system, the managing authority performs ex post verifications on public procurement procedures regardless whether these procedures have been verified ex ante by the ANRMAP or UCVAP. The selection of procedures to be verified takes into account risk factors and specific sampling methodology.</p> <p>d) Revised procedures on management verification.</p> <p>e) AA's reports on compliance audit carried out on ANRMAP and UCVAP</p> <p><u>Commission analysis and recommendation:</u></p> <p>Please see section 3.i) of the report.</p>

N°	Audit finding	Summary of finding	Actions description & Deliverables to be provided within 2 months period	Responsible body / Documents provided
			<p>application of the corresponding published criteria, should be carefully monitored by UCVAP, when participating as observer in the respective committees and by the MA, in its supervisory role on a sample basis.</p> <p>v) The responsible bodies (MA and ANRMAP/UCVAP supervised by the MA as a first level of control) should carry out <u>effective management verifications</u>, resulting in the identification of all irregular expenditure and <u>leading to the necessary corrective measures by the MA including financial corrections and preventing declaration of ineligible expenditure to the Commission</u> if the public procurement procedure has not been legal and regular even <u>if the other bodies (ANRMAP/UCVAP) have not identified the issues</u>. When the irregularities are not detected and corrections not made at the first level of control then the correction should be made at the level of CPA which serves as a second independent level of control.</p> <p>vi) Overall coordination of the bodies and increased and continuous capacity building within the bodies will be critical success factors in promptly improving the management of the EU funds. The auditors were informed that there is already an action plan running in the context of increasing the capacity to absorb EU funds which may fit into some of the Commission recommendations.</p> <p>Deliverables:</p> <p>a) Reports on management verifications methodology with focus on public procurement carried out by the managing authority.</p>	

N°	Audit finding	Summary of finding	Actions description & Deliverables to be provided within 2 months period	Responsible body / Documents provided
			<p>b) Revised agreement on the set up of the system related to the verifications of public procurement procedures, together with legal framework ensuring the accountability of the bodies entrusted with the checks on public procurement procedures.</p> <p>c) Up-dated workflows and procedures focusing on risk areas.</p>	
2.	Discriminator y technical selection criteria	<p>The audit team identified that discriminatory technical criteria were used in the selection of tenderers for two public procurement procedures.</p> <p>These types of irregularities should have been detected ex-ante, at the level of ANRMAP, when verifying before publication, the compliance of tender notices with relevant EU and national legislation.</p> <p>ANRMAP can perform these verifications also by the help of a database developed in compliance with Article 101, of Order 925/2006.</p> <p>Secondly, the management authority, the body responsible for the implementation of the programme, should have detected such cases of non-compliance during their checks for the management verifications.</p>	<p>Actions:</p> <p>a) The managing authority is requested to verify all works contracts under the priority axis 2.1 to screen for the existence of discriminatory selection criteria in the tender notice. The results of this analysis should be reported to the Commission</p> <p>b) Managing authority and ANRMAP should update their procedures and improve their verifications in order to identify and prevent the occurrence of such cases.</p> <p>Deliverables:</p> <p>a) Report on the verifications carried out.</p> <p>c) Up-dated workflows and procedures focusing on risk areas.</p> <p>d) The Managing authority must follow-up possible fraud indicators and report such identified cases to national competent bodies and to OLAF.</p>	<p>MA, ANRMAP, UCVAP</p> <p>The Romanian authorities have provided the following information (letters Ares(2011)1076539/11.10.2011 and ARES 1129227/24.10.2011), namely:</p> <p>a) With regard to the screening of all works contracts under the priority axis 2.1, the managing authority provided a data base of the 46 contracts for which suspected irregularities have been identified with focus on public procurement together with the verification reports. Following the verifications carried out by the managing authority, irregularities have been confirmed for 29 contracts and the management authority proposed financial corrections for the amount of EUR 20.507.752,24.</p> <p>b) Up-dated procedures for management verifications including the risk assessment to be carried out.</p> <p>c) With regard to allegations of fraud raised by the Commission, the</p>

N°	Audit finding	Summary of finding	Actions description & Deliverables to be provided within 2 months period	Responsible body / Documents provided
				<p>Romanian authorities confirmed only one case of the conflict of interest. For the other two cases, national investigations are under progress.</p> <p><u>Commission analysis and recommendation:</u></p> <p>Please see section 3.ii) of the report.</p>
3.	Unjustified use of accelerated procedure	<p>The Contracting Authorities made use of certain actions taken in the context of the recovery package, as explained in Council's communication of 12 December 2008, transposed in the national ordinance 51/2009. Specifically, shortened deadlines have been set in the tender notices, for works tenders launched during 2009 and 2010.</p> <p>ANRMAP took a horizontal approach and allowed the use of shortened deadlines, instead of having a case by case assessment of the urgency and complexity of the contracts to be awarded by taking into account the principle of proportionality.</p> <p>Nonetheless, both the Directive 2004/18 and national ANRMAP Order no. 51/2009, Article 3, stipulate that this principle need to be considered when taking the decision</p>	<p>Actions:</p> <p>a) The managing authority is requested to make sure that all works contracts under the priority axis 2.1 are verified for the existence of discriminatory selection criteria in the tender notice. The results of this analysis should be reported to the Commission</p> <p>b) ANRMAP should issue clear and uniform guidance on use of accelerated procedures including best practice cases.</p> <p>c) Managing authority and ANRMAP should update their procedures and improve their verifications in order to identify and prevent the occurrence of such cases.</p> <p>Deliverables:</p> <p>a) Report on the verifications carried out.</p> <p>b) Guidance provided to contracting authorities.</p> <p>c) Up-dated workflows and procedures focusing on risk areas.</p>	<p>MA, ANRMAP, UCVAP</p> <p>Please see comment above for documents requested under points a) and c).</p> <p>The guidance requested under point b) was provided by AMRMAP under the format of a national Order no. 509/2011.</p> <p><u>Commission analysis and recommendation:</u></p> <p>Please see section 3.ii) of the report.</p>

N°	Audit finding	Summary of finding	Actions description & Deliverables to be provided within 2 months period	Responsible body / Documents provided
		of using accelerated procedures so that the acceleration of the procedure should not be an impediment for the enterprises to submit appropriate tenders.		
4.	Additional works contracted as similar works	The Contracting Authority has made use of the provisions of Article 122 of OUG 34/2006, which states that the Contracting Authority is allowed to apply the negotiated procedure without publication of a contract notice for contracting similar works. However, the auditors identified that additional works have been contracted under addenda under the umbrella of similar works. The amounts foreseen for similar works are 3 times the initial contracted value.	<p>Actions:</p> <p>a) Managing authority should screen all contracts under axis 2.1 to identify and correct cases where additional works have been contracted under the name of similar works.</p> <p>Deliverables:</p> <p>a) Reports on the verifications performed to be provided within 2 months.</p>	<p>MA, ANRMAP, UCVAP</p> <p>Please see comment under action 2.</p> <p><u>Commission analysis and recommendation:</u></p> <p>Please see section 3.ii) of the report.</p>
