Dear [REDACTED]

First of all, I would like to thank you and your colleagues for the great work done on the draft guidance document on defining the single-use plastic products covered by the SUP Directive as well as for the opportunity for stakeholders to provide feedback.

Attached you will find the submission of Metal Packaging Europe, which outlines the key concerns and arguments of the sector on the draft guidance document.

I would kindly ask you to keep this document confidential.

If you have any questions please let us know and we can organize a conference call.

Lastly, could you please confirm the reception of this email and the attached document?

Thank you in advance.

Kind regards,

[REDACTED]
