**Subject:** Follow up to our discussion on the Methane Science Studies

Dear EC colleagues,

It was a pleasure speaking last week and confirming your general interest in joining the Oil and Gas Methane Science Studies.

As agreed – and with apologies for the delay – I'm attaching to this email an example of Memorandum of Understanding, as well as an example of Donor Agreement (both are similar to those concluded with EDF and OGCI for the purpose of the Methane Science Studies). For your convenience I'm also attaching the Framework Document governing the Studies (that we had shared previously).

We look forward to hear back from you once you have had the opportunity to review these documents, and to welcoming you in Paris in the next weeks. In the call you mentioned early December as a possible period for your visit. It generally works for us, but please do let us know which day would work best once you have more clarity on it.

Best regards,
