**Subject:** Draft security laws in Romania and Poland

Dear Executive Vice President Vestager,

In view of our forthcoming meeting, I am writing to you as regards recent legislative proposals in Romania and Poland in the field of 5G security, which aim to exclude Huawei because of its geographic origin. I have brought this matter to the attention of the Commission services. Please find attached a letter with more details of Romania and Poland violating their fundamental EU obligations. I look forward to discussing this matter with you at our forthcoming meeting.

Yours sincerely,

[REDACTED]
