SHORT NOTES OF A MEETING

Subject: ETNO on 8 September 2020 (Connectivity, digital services, gatekeeper platforms, European cloud federation)

I met with

Query re content of forthcoming Connectivity Recommendation, and re thinking on DSA (options for platforms). Relevant Markets Recommendation evolves positively in ETNO's view.

Cloud: some concerns expressed by other companies re A and B level governance structure. ETNO is more interested in baseline EU rules than in governance disputes.

ETNO members interested in edge computing opportunities, less so in quantum secured communications; focus now is on 5G deployment and monetisation.
