COMMUNICATION  
**Subject:** Latest ECDC RRA and LTTs; EC communications travel  
**Attachments:** 20.06.11 LTTs RRA 10.docx

Dear Members of the HSC Communicators' Network,

Please find the latest ECDC Rapid Risk Assessment on Covid-19, 10<sup>th</sup> update, here: <https://www.ecdc.europa.eu/en/publications-data/rapid-risk-assessment-coronavirus-disease-2019-covid-19-pandemic-tenth-update>. I am also pleased to send you the corresponding updated ECDC LTTs – see attached for your internal use. The main risk communication messages centre around the need to prevent resurgence with the upcoming summer period and the possibility of “isolation fatigue” as resurgence of the virus is still possible.

I would also like to inform you about the latest developments regarding travel/tourism, see here the press release from yesterday: [https://ec.europa.eu/commission/presscorner/detail/en/ip\\_20\\_1035](https://ec.europa.eu/commission/presscorner/detail/en/ip_20_1035). The Commission adopted a communication on restrictions to travel to the EU, containing as an annex a Checklist to be used for the possible lifting of the temporary restrictions. There is also guidance on the resumption of visa operations. All links to the formal documents are in the press release.

In this context, you may have already received the EASA/ECDC posters on safe travel, please find them here: <https://www.ecdc.europa.eu/en/publications-data/poster-covid-19-plan-your-journey>. It is our understanding that those will be also translated in different languages, and if so, I will re-circulate to you.

Best regards,  
On behalf of the HSC Secretariat
