Subject: FW: BTO meeting with Kid's for Cancer on Europe's Beating Cancer Plan

Dear Colleagues,
Please find below the minutes of the TC meeting with the KickCancer organization to be distributed in ARES..
Should this also be added to the table indicating the meetings with stakeholders by B5 ?
Thank you very much
Have a nice weekend
Kind Regards

The Belgium based organisation is a family founded and tackles with issues related to paediatric cancers. It supports research and is also politically active at EU level.

*KickCancer expressed its interest in the various action developed under the Europe's Beating Cancer Plan like participation in the public consultation.
They consider that reference to children should be made in all the various actions proposed as children with cancer have specific needs than adults.
Furthermore they consider that the specificities of young adults and adolescents should be taken into account.
Commission gave them an update on the orphan and paediatric file and explained the interlink with the Pharmaceutical strategy*
