Dear [REDACTED]

Thank you for your joint letter to President von der Leyen – well received.

Be assured that your messages will get due attention, in the run-up to the Global Health Summit and beyond.

Best regards,

Kurt

Subject: Joint Letter to President von der Leyen from PAN, Global Citizen and ONE re. GHS and EUCO

Dear Kurt,

I hope you've been well since we last spoke—

Ahead of the upcoming Global Health Summit on 21 May, and the European Council Summit on 24-25 May, please find attached a joint letter for President von der Leyen from ONE, Global Citizen, and the Pandemic Action Network. I'd be most grateful if you could bring to her attention.

With progress on global vaccination falling dangerously short, we're calling on all EU leaders to use every tool at their disposal to ensure vaccines are delivered all over the world. We would specifically welcome President von der Leyen's leadership to ensure the EU seizes this opportunity to:

- Develop a strategy to reach global immunity as soon as possible;
- Immediately share surplus doses through COVAX;
- Contribute to fully funding the \$18.5 billion gap of the ACT-Accelerator;

- Support all means necessary to increase global supply of COVID-19 tools, including by supporting a temporary TRIPS waiver of COVID-19 intellectual property rights and investing in technology transfer and additional manufacturing.

If you have time to speak in the coming days, we would be happy to discuss these recommendations further, and how we can amplify commitments that you plan to make in the near future. Please let me know if you have any availability, we would be happy to work around your schedule.

Best Regards,
