Subject: INVITATION: EEF web-event "New (post) COVID-19 reality -

Dear Director General,

Further to our fruitful phone conversation a few weeks ago, I am reaching to you to enquire whether you would be willing to take part to a **European Energy Forum web-event** and be our guest speaker. The topic I would propose is: **“New (post) COVID-19 reality – what does it mean for EU Energy Policy?”**.

The European Energy Forum has to reinvent itself and is considering organising a web-debate (with the Webex system) instead of the traditional dinner-debates such as the one you took part in last September. Our goal is to have an interactive web-

debate, as close as possible to our usual events, where participants can interact with the panel.

We would have a panel that I would preside, with yourself as speaker and 3 other colleagues MEPs (to be confirmed whom). Participants would be fellow MEPs and our Associate Members – representatives of the whole spectrum of the energy industry.

We would be glad if you could offer some introductory remarks, which would be followed by short interventions from distinguished MEPs in the panel. This would be followed by an open discussion with participants, who would be unmuted upon request and allowed to ask their questions to you and other speakers. We expect a lively and interactive exchange of views as it is always the case at our events.

I would propose the date of **Thursday, 11 June, from 9.00 to 10.15 a.m.** We are of course flexible and able to adapt to your availability should you prefer another timing.

I do hope you will be willing to participate in this meeting and accept our invitation.

With warm personal regards,

Jerzy Buzek

Member of the European Parliament

President of the European Energy Forum
