Subject: ECJ ruling and Commission review request
Attachments: ECJ Ruling - letter to COM for guidance.pdf

Dear [redacted],

The emission granting type approval authorities are working to provide the information requested by the Commission in its ad-hoc meeting of 14 January 2021. A number of difficulties in the provision of this information and its extent, have arisen and the attached letter explains these in more detail.

Considering the deadline for the provision of this information, the need for a "special" Forum meeting to provide a clear and consistent approach with a clear understanding of the extent to which this information is required, has become crucial to aid this process. Can you review and advise of the possibility for this Forum meeting request?

Best regards,

[redacted]
